SUMMARY

Motivated B-Tech student with a strong interest in Full-Stack Development. Experienced in building end-to-end web applications using technologies like Python, React, Node.js, and MongoDB. Skilled in developing secure, scalable systems and integrating advanced features into real-world projects. Passionate about solving complex problems through clean, efficient code, modern technologies, and practical, user-focused solutions. A quick learner and collaborative team player, eager to grow, adapt, and contribute meaningfully in innovative, technology-driven environments.

INTERNSHIP EXPERIENCE

Demy Software Solutions – Visakhapatnam,India
Cloud and DevOps Intern
During my summer internship, I gained foundational knowledge of DevOps practices by working on real time tasks. I learned how to manage AWS EC2 Instances, set up a single CI/CD pipeline using Jenkins, and use Docker for containerizing applications. I assisted in deploying applications to the cloud and understood the fundamentals of automation and deployment processes. This experience helped me build a strong foundation in cloud and DevOps concepts as a fresher.

Andhra Pradesh State Skill Development Corporation (APSSDC) - Online
Data Analytics Intern
During my certified internship in Data Analytics, I learned the fundamental concepts of data preprocessing, analysis, and visualization. I gained hands-on experience working with Python libraries such as Pandas and NumPy for data handling and scikit-learn for basic machine learning tasks. I also used Seaborn for data visualization. As part of my learning, I implemented simple machine learning models like logistic regression and classification on sample datasets to understand how predictive models work.

PROJECTS

AI-Based Automated Social Media Content Creation Platform (Full-Stack Web Application)
Tech Stack**:** Next.js (App Router), React.js, Node.js, Express.js, MongoDB, JWT, OpenAI API, Meta Graph API, Cloudinary.

- Built a full-stack platform to manage institutional events from proposal to social media publication.
- Implemented a role-based approval workflow (Draft → HOD → Admin → Published) for secure governance.
- Developed automated Instagram & Facebook posting system using Graph API and node-cron scheduler.
- Designed a responsive dashboard with Next.js & Redux for real-time event tracking and status management.
- Implemented secure authentication using JWT, Bcrypt**,** and protected REST APIs.

Nutrition and Diet Calculator
Tech Stack: HTML5, CSS, JavaScript, Node.js, Express.js, REST API, JSON.

- Built a responsive web-based application to calculate nutritional insights based on user health inputs.
- Designed a modern, responsive UI with CSS, Google Fonts, and background optimization.
- Designed an interactive form to collect age, gender, height, weight, and symptoms.
- Implemented BMR-related data processing and symptom-based nutrient deficiency detection.

EDUCATION

Nadimpalli Satyanarayana Raju Institute of Technology - *Visakhapatnam, Andhra Pradesh* **October 2022 - Present**
BTech – Computer Science and Engineering (AI&ML), GPA – 8.38

Sri Chaitanya Jr College - *Visakhapatnam, Andhra Pradesh* **June 2020 – May 2022**
Board of Intermediate (MPC) – 91.3%

Navya Vikas Em High School - *Visakhapatnam, Andhra Pradesh* **June 2019 – May 2020**
Board of secondary Education – 10 GPA

PROFESSIONAL SKILLS

- Technical Skills : Python, C, Java, HTML, CSS, MySQL,Node.js,React,MangoDB
- Soft Skills : Analytical Skills, Communication Skills, Problem solving

CERTIFICATIONS

- RPFMLAI Introduction to Machine Learning and AI by Edx.
- Overview of Building Apps on AWS -MangoDB.

Achievements and Activities

- Published a Technical paper titled "Application of Artificial Intelligence in Education" in the International Journal of Innovative Research in computer.
